Registration of Voters.

Mr. Sheriff Elliott, Registrar for Victoria District, under the "Qualification and Registration of Voters' Act, 1871," has given public notice that printed forms of Notice of Claims to be given, and Declarations to be attached thereto, can be obtained on application to the gentlemen whose names appear in the notice as Collectors for the various Polling Divisions into which the District is divided. We were in hope that the Executive would have issued such instructions to the respective Registrars of Electoral Districts throughout the Colony, as would ensure a tolerably thorough registration of all persons possessing the requisite qualification as voters so that they might be prepared to take part at the ensuing general election of representatives to serve in the Local and Dominion Legislatures, but if the course to be pursued by the Registrar of Victoria District is indicative of that which shall prevail throughout the Colony, it will fall very far short of accomplishing the work which the Act itself contemplates. Public convenience seems to have had no place in the Sheriff's calculations as to the best method of getting the lists filled up; but in order to accommodate two at least of the gentlemen chosen Collectors, the residents of South Saanich and Lake Districts are required to call upon them, the former at the Sheriff's Office and the latter at the City Council Chambers, in this city, on or before the 10th of June next. Now, we do not see why the farmers of those districts should be expected to leave their work just in the busiest period of the year and travel from five to ten miles from their homes, and waste from one to two days time, simply for the purpose of qualifying themselves to take part in the elections next fall. It is unquestionably an important matter to have the registration lists well filled and hence we very much better have been very much better have been the most central locations in each district been chosen for the operations of the Collectors. In South Saanich, for instance, Alphonsa's Hotel, at the cross-roads, would have been a more likely spot for the purpose than the Sheriff's office; the Royal Oak, in Lake District, than the Council Chambers. It might not have been quite so convenient for Messrs. Baker and Leigh, but as those gentlemen will doubtless be very well paid for their services, we submit that their ease and personal comfort should have been held by the Governor and by the Sheriff as of secondary moment compared with the time and convenience of our farming population at this particular season of the year, when the cultivation of their farms demands their whole attention. Then in Cowichan Division, to expect the farmers of Somers, Quam, Chem, Comken, Shawigan and Chemmen to leave their homes and labors, and spend days in doing so, to wait upon John Morley, Esq., for no other purpose than to have their names recorded as voters, is to expect too much from them. In every one of those districts a Collector should have been appointed with instructions to use all necessary diligence to have the names of voters recorded, and if the recording fees allowed by law and collectable from the parties registering was insufficient to indemnify them for their services, let the deficiency be defrayed from the general revenue. It may be said in reply to this, that if those who have the legal qualification of electors deprive themselves of the right to vote by a non-compliance with the registration clause of the Act, they alone will suffer the consequences of such neglect. But we do not look at the matter in that light alone. It is true, in effect they will disfranchise themselves, but the country will also be a loser thereby. Thinly populated as the colony is, both on the Island and Mainland, it is of importance in view of the radical change about to take place in its constitution and government, that every man who can do so should qualify himself to take part in those political contests which must, from time to time, engage public attention, and upon which in a great degree will depend the good government and prosperity of the country, and the welfare and contentment of the people. If on the Mainland the Registrars follow the example of Mr. Sheriff Elliott, and simply issue their notices to the residents scattered abroad over that vast region of country, notifying them that if they desire the right to vote they must earn it by travelling, it may be fifty or more miles, to wait upon some gentleman of elegant leisure, who quietly sits in his own or some other body's office, waiting for customers, upon whom he will condescend to wait on condition that the travel-worn and would-be voter will first grease his palm with a 25 or 50 cent piece, we fear that the elections to be held in the fall will exhibit a sorry representation of the electoral element throughout the colony, and convey a very erroneous idea of what the actual male population of the country really is.
